## **DETAILED ACTION**

## Allowable Subject Matter

- 1. Claims 1, 2, 4-9 and 13-14 are allowed, renumbered as 1-10 respectively.
- 2. The following is an examiner's statement of reasons for allowance:

The prior art teaches an optical disk drive including an optical pickup apparatus for accessing an optical recording medium, comprising a light source unit emitting one of a plurality of laser beams having different wavelengths, the light source unit including a first laser diode emitting a laser beam having a first wavelength and a second laser diode emitting a laser beam having a second wavelength; an optical system focusing said one of the plurality of laser beams, emitted by the light source unit, onto a recording surface of the recording medium; a photodetector unit receiving reflection beams, which are reflected from the recording medium in response to said one of the plurality of laser beams focused by the optical system, to generate detection signals from the received reflection beams; and a holographic unit having a first hologram suited to the first laser diode and a second hologram suited to the second laser diode, the first hologram provided to diffract a reflection beam of the laser beam of the first laser diode to the photodetector, the second hologram provided to diffract a reflection beam of the laser beam of the laser beam of the second laser diode to the photodetector.

Application/Control Number: 09/922,746

Art Unit: 2655

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach or suggest either alone or in combination, wherein one of the first and second holograms in the holographic unit includes a first tracking detection region suited to the reflection beam of the laser beam of the first laser diode, and a second tracking detection region suited to the reflection beam of the laser beam of the second diode, and specifically a surface area of the second tracking detection region being larger than a surface area of the first tracking detection region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jorge L Ortiz-Criado whose telephone number is (703) 305-8323. The examiner can normally be reached on Mon.-Thu.(8:30 am - 6:00 pm), Alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Doris H To can be reached on (703) 305-4827. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
